MOBILIZATION,
DEPLOYMENT,
REDEPLOYMENT,
DEMOBILIZATION

The diagram consists of a green world map centered on the Atlantic Ocean. Three large black circles overlap the map: one centered over North America, one over Europe/Africa, and one over Asia/Australia. Below the map, on the left, is a black silhouette of a city skyline with several skyscrapers. On the right, below the map, is a group of stylized human figures in various poses, some appearing to be in motion or carrying equipment.

Maintenance Readiness

A photograph of military personnel in camouflage uniforms working on a vehicle engine. The scene is set in a workshop or maintenance bay. In the foreground, a man in camouflage is focused on adjusting a component of the engine. To his right, another person is also working on the engine. In the background, a third person is visible, and a man with glasses and a mustache is looking on. The engine is a complex mechanical unit with various hoses and components. The overall atmosphere is one of professional maintenance work.

DSB Mission

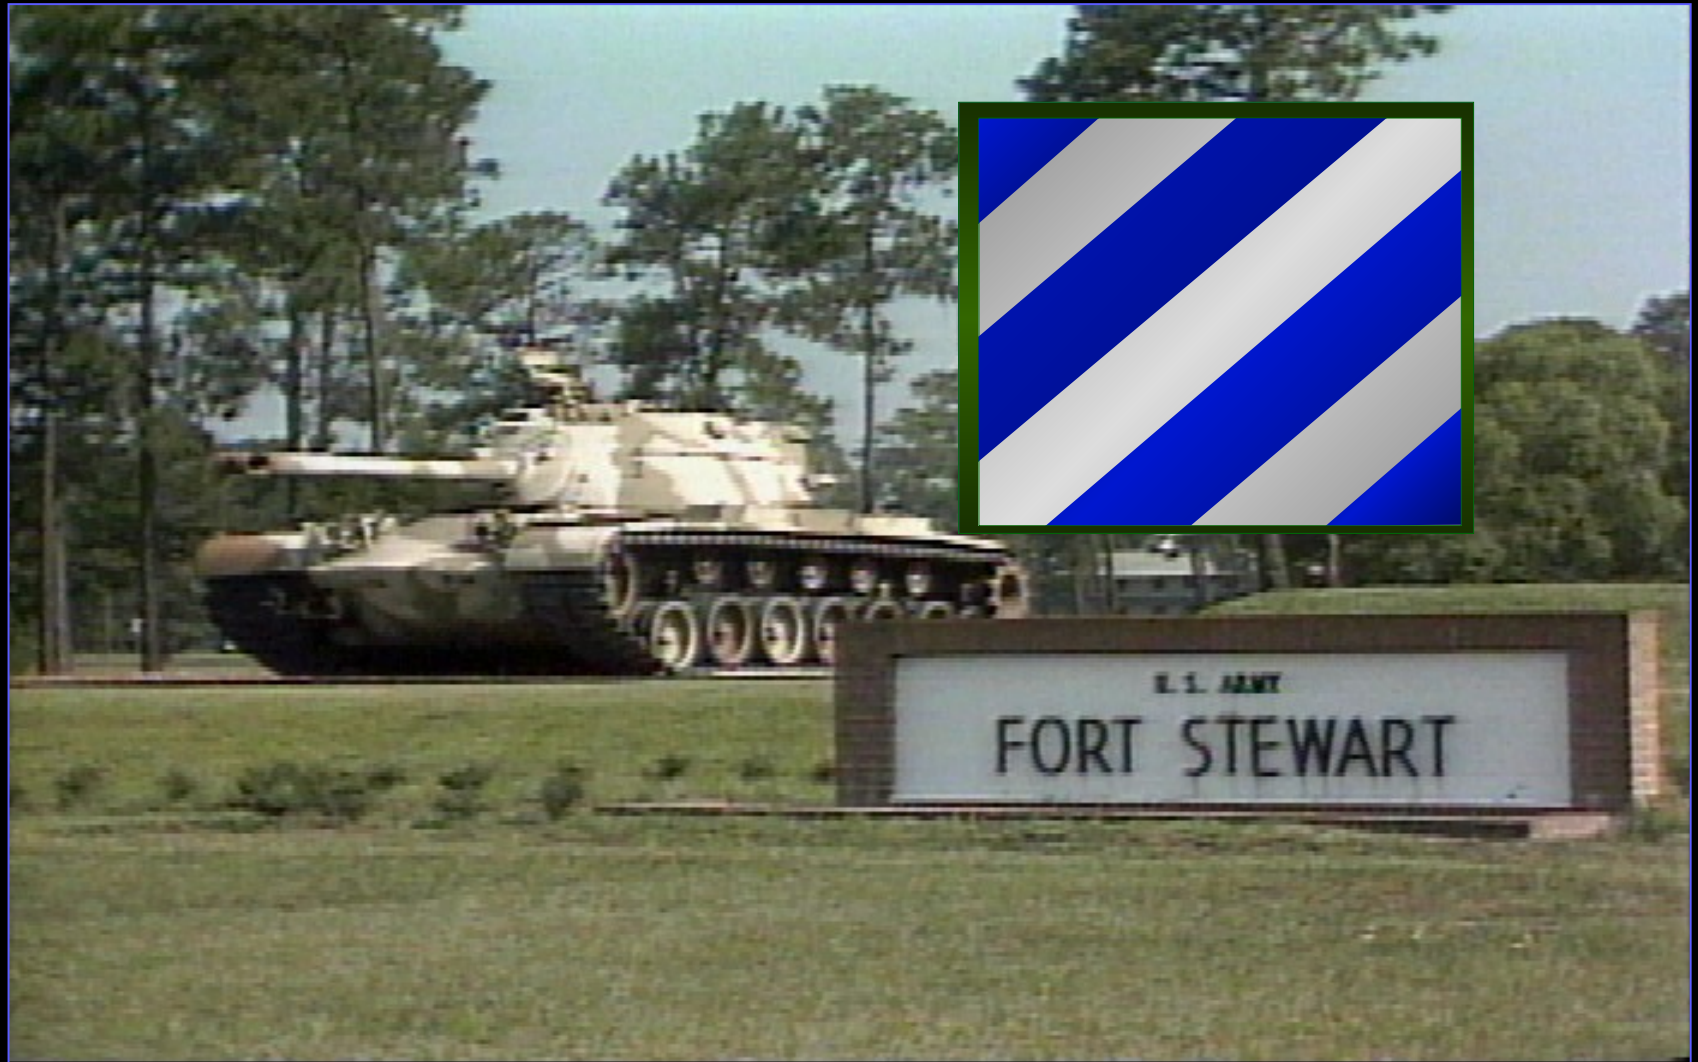

□ Plan and assist in the execution of staging and outloading of organic unit equipment and vehicles for deploying units.

- Provide liaison and coordination for the movement and receipt of deploying units to the port of embarkation.
- Prepare to support follow-on missions for MTMC worldwide.
